

SY

Draw yarn - SY type

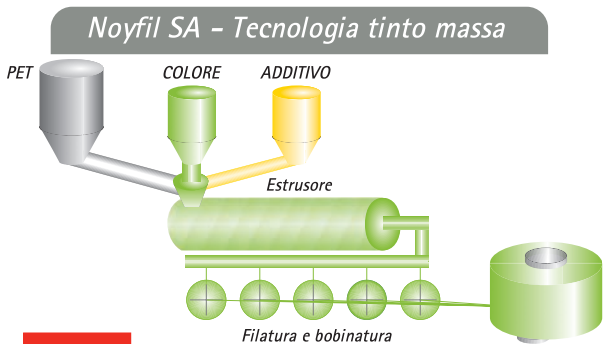

- Starlight® SY type is an exclusive product of Noyfil SA
- It's drawn during the spinning process and it has textile characteristics which imparts to the fabrics **softness** and **wearability**
- It's **bright** effect is characterized by a special luster for all colour shades
- Noyfil has developed its own **matching colour system** for SY yarns
- Noyfil offers a custom-tailored **sampling** system
- It can boast a long-standing experience in the production of fibres with different **sections** such as hollow fibres, bi-tri and multilobal sections applied to all the main types of **polyester**, both standard and modified
- The **minimum** production quantity is **200 Kg**

Parameter	Unit	Range
Tenacity	cN/dTex	2,5 ÷ 3,7
Elongation	%	50 ÷ 70
Hot Air Shrinkage (120°C x 2 min)	%	3 ÷ 7
Pet FR Hot Air Shrinkage (120°C x 2 min)	%	7 ÷ 10

Starlight® SY Polymer	Bright	Semi Dull	Super Dull	Solution Dyed	Bacteriostatic	Final Count (dtex)	Final DPF (dtex)	Filament cross section		
								●	▲	Special
PET Standard	X	X	X	X	X	22 ÷ 660	1,2 ÷ 4,8	X	X	X
PET Recycled	X	X	X	X	X	22 ÷ 660	1,2 ÷ 4,8	X	X	X
STARLIGHT FR	X	X	X	X	X	50 ÷ 330	2 ÷ 4,8	X	X	-

Dyestuff and additive embedded within the fibre
 Maximum colour fastness (color fastness chart specifications available)
 Colour reproducibility guaranteed
 Reduced consumption of water and energy compared to traditional dyeing systems
 OEKOTEX Standard 100 Certification - Class 1
